

# Coreopsis grandiflora 'Early Sunrise'

## Early Sunrise Tickseed

### DESCRIPTION

'Crème Brulee' is a yellow-flowered coreopsis that is being promoted as an improved version of *C. verticillata* 'Moonbeam'.

This is a threadleaf-type that typically grows in dense, bushy clumps to 12-20" tall eventually spreading to 35" wide.

Butter-yellow daisy-like flowers with toothed rays and darker yellow center disks bloom profusely from June to October.

Lacy deep green leaves.

Excellent border and heat tolerant perennial.
